

Brigid Collins

By: Sam DeLap and
Natasha Adams

Brigid Collins is a former graduate who attended Stewart School from 1995 through 2001. During her pre-school years she was in both ABC and Children's Garden. Brigid remembers Mr. Powell quite distinctly, as well as all the cards she used when learning her letters.

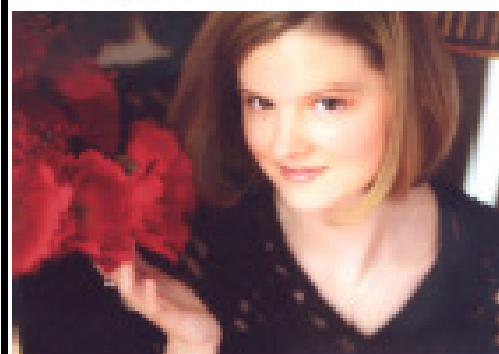

During her years here she learned to like science a lot, and she also enjoyed reading. She found that math was hard, but not that much more than the other subjects. One of her best memories at Stewart was doing the talent show with Mr. Carmichael, and Laura Miller. The teachers she remembers from Stewart are Mr. Carmichael, Mrs. Carmichael and Mrs. Breeding. She didn't do any sports but did do Spell Bowl and Chess Club. She remembers Space Camp, Bradford Woods, the zoo, paging and Third House, but she enjoyed Space Camp and Bradford Woods

the most. She says Halloween was fun; it was like celebrating her birthday. She got scared when the gun fired on American History Day. She enjoyed the roast when she played the part of a graduate. She ran for secretary, but no one ran against her.

After she left Stewart she knew all the things her class was covering. She thinks the math at Stewart was not interesting, but it helped her later on. She was scared of leaving Stewart but liked going to a new place where she didn't know anybody, but she didn't like taking the bus.

She went on to North High School, and doesn't have any scholarships for college at the moment. She didn't do any of the activities that she had at Stewart, but she was in theater and choir during High School. She received an award for a writing competition last year. In her sophomore year she received "Best Technical Newcomer Award." She has volunteered at Love Chapel and First Call for Help a few times. It made her feel special and appreciated because they need as much help as they can get. During the summers of her high school years she remembers going on family vacations and getting health and P.E. classes out of the way. She went to Northwestern University

and took some classes, and this year she is going to get a job and earn some money. Working in theater has probably been one of her greatest achievements.

She plans to attend Purdue University and is very excited. She can't wait to be done with High School and move on to college. She will probably join clubs that have to do with video games, foreign languages, theater, etc. She has traveled to Alaska, which is beautiful, Gatlinburg, Tennessee, which was quaint, Disney World in Florida, and California which is usually sunny. Her favorite book right now is Wuthering Heights. It is romantic and dark and it won't make sense until you are in your senior year.

Her advice for Stewart Students is "Don't save your work for the last minute. Most homework assignments in middle school and high school will be due the next day, so you won't have time to procrastinate. Don't get in the habit now!"
